

PRESS RELEASE

JPL Employs more leading industry experts

27 September 2018

Name: Naser Sheikhzadegan

Position: Director of Product Management and Development

Previous role: Senior Product Manager at Plantronics

James Clarke (CEO) - I am truly delighted to announce that we have a true industry heavy weight on the JPL team. With Naser onboard the team, we are putting greater focus on our software product strategy and development processes. Naser brings with him decades of experience in product management and development of telecom products and wearable devices, the last 10 years of which had been as a Senior figure with Plantronics.

Naser Sheikhzadegan - I am excited at this opportunity and hope to be able to help JPL become a world-class provider of business headset solutions and high-value software offerings by growing the development team and streamlining the development processes so that we can take hardware and software solutions to the market that meet the needs of our customers.

JPL Telecom's Mission

“To build an empowered headset channel with strong focus on Innovation, sales success and margin, by offering competitively priced true alternatives , some with Patented industry firsts compared to the market leaders, that are certified by the UC vendors”.

James Clarke, founder and CEO of JPL Telecom.
