Introducing a new Bluetooth® 5.4 headset from JPL Telecom

Sleek microphone boom design that folds back to be part of the headband design. Supports Aptx adaptive codec, USB AUDIO

The only headset with dongle storage

Overview

Bluetooth® 5.4 - QCC3095

Premium Audio Speakers - Designed for music and speech

Music time (without ANC): up to 55 hours @ 50% Volume. BT + ANC: up to 45 hours

ANC - to give you better call concentration as it reduces background and surrounding noises

Battery charge time: 2 hours

Wireless Range: 10m

Features "hear-thru" technology that amplifies surrounding sounds so that you hear conversations or announcements if needed while wearing the headset

Hidden Boom - Designed so that the boom rotates up to align with the headband and is hidden away when the boom is not in use

BT Dongle - With handy dongle storage pocket within the headset

DND Light - Cleverly placed DND light so that colleagues know when you are on an active call

Microphone boom arm rotates to upright position to disable the microphone in the boom and activate the microphones in the speakers

Call Controls - Neatly positioned within the speaker housing giving you full control with volume, mute and call accept/reject

Carry Case - Supplied with a sustainable cloth pouch to keep your headset clean while not in use.

Modern Looking - Work from anywhere headset

Lightweight design with ultra soft eco foam ear cushions and padded headband

Pairs with 2 active devices (6 devices can be stored in memory)

ANC button

Volume up and down

Microphone boom arm rotates to upright position to mirror the headband on the opposite side and give an audio style looking headset. Microphone is disabled when in the upright position

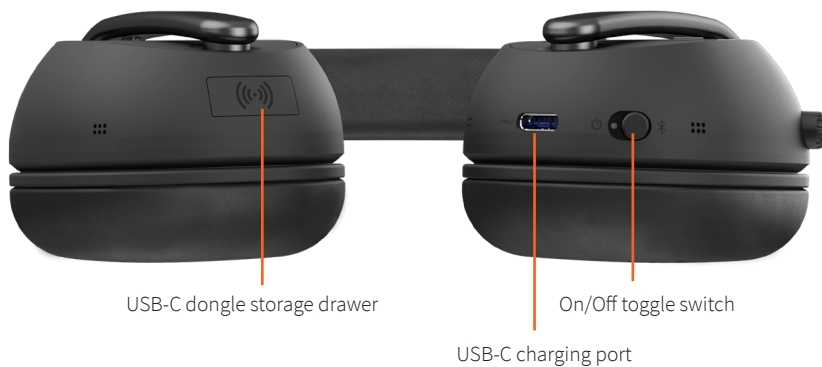

Do Not Disturb - DND Lights

Red: on a call
Blue: other use scenario

3 x Microphones:

One is located at the tip of the boom arm and the other two are located on the side of each of the speakers

Flip the microphone boom arm down for use in noisy environments, the microphones located in the speaker housing can be used for all other conversations

USB-C dongle storage drawer

On/Off toggle switch

USB-C charging port

JPL-Icon 300-RB
